
OBJECTIVE

Full-time: Software/web development starting Aug, 2016

SUMMARY OF QUALIFICATIONS

- 6 years of experience in software development including project experience in web and Android development.
- Proficient in programming in Java, PHP, SQL.
- Strong academic background in algorithms, data structures, cryptography, network security.
- Possess excellent verbal and written communication skills.
- Proficient in mathematics and eligible to work in Canada.

TECHNICAL SKILLS

- **Programming Languages:** Java, C++
- **Web Development:** HTML, CSS, JavaScript, jQuery, PHP, SQL
- **Technologies:** Android Studio, Eclipse, Matlab, ns2, Selenium web-driver
- **Version Control Systems:** Git, SVN
- **Operating Systems:** Windows 7/8, Linux

RELEVANT EXPERIENCE**Graduate Research Assistant, University of Waterloo, Canada** **May/15 – Present**

- Currently working on designing re-authentication mechanisms for smartphones.
- Developing an Android lock-library for app-level pattern/pin lock configurations with varying transparencies.

Research Associate, Technology Information, Forecasting and Assessment Council (TIFAC), India**Sept/13 – Jun/14**

- Developed web-applications using PHP for use within the organization.
- Maintained network performance by network monitoring and analysis.

Research Intern, Bell Labs Research, India**Jan/13 – Apr/13**

- Conducted a research study to understand the concerns of Indian web users towards online advertising.
- Developed a selective ad-block plugin for Firefox browser using JavaScript to filter sensitive ads.

Play-tester, MILLEE, CMU, USA**May/10 – Dec/10**

- Conducted and submitted alpha and beta test reports for educational mobile games.
- Managed content required for the game including voiceovers, XMLs etc.

EDUCATION**University of Waterloo, Canada****Sept/14 - Present**

- Candidate for Master of Mathematics, Computer Science.
 - Relevant Coursework: Introduction to Artificial Intelligence, Advanced Topics in HCI- Humans in the Loop Systems, Cloud Computing and Software Defined Networking.
- Expected Graduation Date-** August, 2016

CGPA: 88.20/100**Dhirubhai Ambani Institute of Information and Communication Technology (DA-IICT), India****Jul/09 – May/13****CGPA: 8.55/10**

- Bachelor of Technology, Information and Communication technology (ICT).
- Relevant Coursework: Data Structures and Algorithms, Introduction to Graph theory, Operating System, Database Management System, Introduction to Cryptography, System and Network Security, Security Protocols, Network Protocols, Sensor Network Systems.

TECHNICAL EXPERIENCE

Projects

- **Crowd-sourcing system for multi-lingual plagiarism detection-** Developed a web interface to allow users to identify plagiarized news articles across multiple languages using PHP, JavaScript and MySQL.
- **Ad Filter Browser Plugin-** Developed a modified version of the popular Adblock plus browser plugin for Firefox using JavaScript, which blocks online ads containing sensitive content.
- **Ad-Extractor Tool-** Implemented a Java tool to extract and identify the content of textual and image-based online ads present on a given list of web-pages using Selenium web-driver.
- **NGO Information management Suite-** Collaborated on building a web-based information management system for an NGO for cataloguing their work, evaluating the NGO and its employee's performance.
- **P2P File Transfer System-** Implemented a client-server implementation in C language which facilitates file sharing between clients of the same network.
