

---

**OBJECTIVE**

Seeking full-time opportunities in the areas of software/web development starting August, 2016

---

**Technical Skills**

- **Programming Languages:** Java, C++, PHP, SQL, JavaScript
  - **Technologies:** Android Studio, Matlab, ns2, Selenium web-driver, Labview, MySQL
- 

**WORK EXPERIENCE****Graduate Research Assistant, University of Waterloo, Canada****May '15 – Present**

- Currently working with Prof. Urs Hengartner on designing new authentication mechanisms for implicit authentication schemes for Android.
- Developing an Android lock-library for app-level Pattern/PIN lock screens with varying transparencies.

**Research Associate, Technology Information, Forecasting and Assessment Council (TIFAC), India****Sept '13 – June' 14**

- Worked on developing web-applications using PHP for use within the organization.
- Involved in maintaining network performance by network monitoring and analysis.

**Research Intern, Bell Labs Research, India****Fall '13**

- Conducted a research study to understand the concerns of Indian web users towards online advertising.
- Developed a selective ad-block plugin in JavaScript for Firefox browser to address the user concerns.

**Play-tester, MILLEE, CMU, USA****Fall '12**

- Conducted alpha and beta tests for the mobile games developed and submitted test reports
  - Managed content required for the game including voiceovers, XMLs etc.
- 

**EDUCATION****University of Waterloo, Canada****Sept '14 - Present**

- Master of Mathematics in Computer Science.
  - Relevant Coursework: Introduction to Artificial Intelligence, Advanced Topics in HCI- Humans in the Loop Systems, Cloud Computing and Software Defined Networking
- Expected Graduation Date-** August, 2016

**CGPA: 88.20/100****Dhirubhai Ambani Institute of Information and Communication Technology (DA-IICT), India****Jul '09 – May '13****CGPA: 8.55/10**

- Bachelor of Technology in Information and Communication technology (ICT).
  - Relevant Coursework: Data Structures and Algorithms, Introduction to Graph theory, Operating System, Introduction to Cryptography, System and Network Security, Security Protocols, Network Protocols, Sensor Network Systems.
- 

**TECHNICAL EXPERIENCE****Projects**

- **Crowd-sourcing system for multi-lingual plagiarism detection-** Developed the front-end interface of the platform using PHP, JavaScript and MySQL to allow users to identify plagiarized news articles across languages.
- **Ad Filter Browser Plugin-** Developed a modified version of the popular Adblock plus browser plugin using JavaScript which blocks only sensitive online advertisements in contrast to blocking all online ads.
- **Ad-Extractor Tool-** A Java tool to extract and identify the content of both textual and graphical online advertisements present on a given list of web-pages using selenium web-driver.

- **NGO Information management Suite**- A web based information management system for an NGO for cataloguing their work, evaluating the NGO and its employee's performance.
- **P2P File Transfer System**- Implemented a client-server implementation in C language which facilitates file sharing between clients of the same network.
